Wisconsin ATV/UTV Regulations
(as taken from Wisconsin Off-Highway Regulations PUB-LE-500 2019)

Helmet Requirements
All ATV/UTV operators and passengers under the age of 18 are required to wear a minimum DOT standard ATV or motorcycle helmet. Bicycle helmets do not meet this requirement.

Helmets for Passengers
If circumstances would require you to wear a helmet as the operator then you, as a passenger, must wear a helmet.

Speed Limits/Restrictions
You must slow your ATV/UTV to 10 mph or less:
** When you are riding within 100 feet of a person who is not on a motorized vehicle. This includes, but is not limited to slowing for anglers, hikers, joggers, horses, etc. as well as other ATV/UTV operators standing along the trail.
** When you are riding within a 100 feet of an ice fishing shanty while on the ice.
** When you are riding within 150 feet of a home or dwelling.
** You must obey the posted speed limit at all times.
Exception: The 10 mph speed limit doesn't apply while operating on legal ATV Road Routes, unless enacted by local ordinance.
** When operating on or along roadways you cannot exceed the posted roadway speed limits for motor vehicle traffic unless there is a specific speed limit posted for ATV/UTVs.

Other ATV/UTV Restrictions
You must slow your ATV/UTV to 10 mph or less:
** You must obey all regulatory signs, such as stop signs, yield signs and speed limit signs.
** You cannot operate at speeds that are unreasonable or improper.
** You cannot operate in a careless manner so that it endangers a person or property.
** You can't operate on public property in areas where such operation is prohibited by signage and/or local rule or law.
** You can't operate on private property without the permission of the owner or lessee. Failure to post the property does not give you the authority to ride there.
** You can't allow a person to operate if they are :
# Prohibited by law
# Has not obtained the required safety certification (or underage).
# Incapable of operating because they are physically or mentally unable to exercise physical control over the speed or direction of the machine.
# Under the influence of alcohol or drugs.
You must stop your machine after being requested to do so by a law enforcement officer.

ATV/UTV Equipment Requirements
Your ATV must be equipped with at least a single white headlamp (2 for UTVs) and a red tail lamp must be activated during the hours of darkness or white operating on or along a roadway, even crossing roads. It is recommended that you leave your lights on at all times for safety.
** Colored headlamp covers, lens covers, or colored headlamp bulbs are not legal to use when you are riding during the hours of darkness or white operating on or along a roadway, even you are crossing roads. Under most circumstances you cannot use colored headlamp covers or bulbs.
** Your headlamp must be able to illuminate any person or object at a distance of 200 feet in front of your machine.
Other auxiliary lighting is allowed as long as it doesn't interfere with legal lighting requirements.
Red and blue lighting identifies emergency or law enforcement vehicles.
Your machine must be equipped with a tail lamp that is visible for 500 feet to the rear during the hours of darkness.
Your machine must be equipped with at least one brake, operated either by hand or by foot. All UTV passengers must have their seatbelt fastened at all times.
It is illegal for a passenger to ride in or on any part of a UTV that is not originally designed or intended by the manufacturer to be used by passengers. It is not legal to operate with passenger in any after-market seating placed in the cargo area of a UTV.

Exhaust and Noise Restrictions
** Your machine must be equipped with a functioning muffler that prevents unusual or excessive noise.
** No person may manufacture, sell, rent or operate an ATV/UTV in such a manner that noise emitted from the machine is louder than 96 decibels measured on the "A" scale; measured in the manner prescribed in the reaffirmed Society of Automotive Engineer's Standard J1287 , entitled Measurement of Exhaust Sound Levels of Stationary Motorcycles.
** No one shall deny or refuse an inspection or testing of an ATV/UTV by any law enforcement officer who reasonably suspects a violation of an equipment requirement.
** Your machine must be equipped with a spark plug arrester at all times, even during the winter.
No person may manufacture, sell, rent or operate an ATV/UTV that is louder than 96 decibels.

Accidents and Crashes
If you are involved in a crash, the first thing to do is ensure you are okay and not going to be involved in another crash from oncoming traffic. You must provide help to anyone who was involved.
Any crash that results in an injury requiring treatment by a physician or a fatal accident must be reported soon as possible to a Conservation Warden or other law enforcement officer. You must file a written report of the incident within 10 days to the DNR.
The DNR off-Highway Incident Operator Report can be obtained by visiting the DNR website dnr.wi.gov, keyword search "crash" or sheriff's office.
Enforcement, Penalties, & Common Violations
Any Conservation Warden, officer of the state patrol or inspector, county sheriff or municipal peace officer may enforce ATV/UTV laws. The fines for violating these laws range from $150 - $2000. You could also face up to one year in jail. Most of the ATV/UTV laws are safety related. Violating these laws often reflects negatively on the entire ATV/UTV community.

Top Ten Violations (not in Order)
Operate without Valid Registration
Operate Without Displaying Rear ID Plate
Operate While Intoxicated
Operate on Private or Public Property without Permission
Operate on or Near Highways
ATV Equipment Violations
Operate in a Careless Manner
Owner Permitting Operation by Unauthorized Person
Operate/Ride Without Head Gear
Operate without a Valid Safety Course Certificate/Fail to carry

Help Prevent Violations
Always conduct a pre-ride inspection to ensure your equipment is operating properly.
Review the local, state and federal regulations the area in where you plan on riding and ask questions if you are unsure of a regulation.
Double-check to make sure you are caring all of the required paperwork.
Slow down, ride sober, and always wear a helmet.
Ride only with safe, responsible, and courteous operators
